

KABPRO Admin - Features Catalog

Audience: Product, sales, engineering App: Fleet Admin (admin/) Status: All modules unrestricted today (no plan / entitlement gates)

1. Access & shell

Authentication

- Email / password login and register
- Google OAuth (when VITE_GOOGLE_CLIENT_ID is set)
- JWT access token + refresh token rotation
- Remember-me / device sessions (list, revoke one, revoke all others)
- Auto logout on unauthorized / failed refresh (fleetos:unauthorized)

Agency gate

- Authenticated users with zero agencies must complete Agency Onboarding (company profile -> contact/base -> GSTIN/PAN) before the main shell
- Multi-agency switcher: switch agency, create agency, view/edit agency profile

Shell chrome (always available)

- Global search
- Soft refresh / sync
- Language selector (22+ Indian languages)
- Theme (dark / light)
- Notification bell
- User menu + role badge display

Suggested entitlement keys

auth.google - agency.multi - agency.create

2. Navigation map

Group	Menu item	Route(s)
Dashboard	Dashboard	/, /dashboard
Vehicles	Vehicles	/vehicles, /vehicles/:id
Drivers	Driver list	/drivers, /drivers/list
Drivers	Attendance	/drivers/attendance
Drivers	Driver expenses	/drivers/expenses
Drivers	Driver payroll	/drivers/payroll
Departments	Contracts	/departments, /departments/contracts
Departments	Daily duty logs	/departments/duty-logs
Departments	Monthly billing	/departments/billing
Departments	Payments	/departments/payments
Departments	Sat-Sun Off Duty Billing	/departments/weekend-billing (subtab; not in sidebar)
Booking	Booking	/booking, /bookings (/trips redirects here)
Money	FASTag per vehicle	/expenses, /expenses/fastag
Money	Fuel tracking & logs	/expenses/fuel

Money	All expenses	/expenses/all
Money	Profitability	/profitability (+ ?ledger=)
Money	Revenue	/revenue
Compliance	Documents	/compliance
Compliance	Maintenance	/maintenance
System	Activity	/activity
System	Report (support tickets)	/report, /reports
System	Notifications	/notifications
System	Profile & Settings	/profile

3. Module detail

3.1 Dashboard

Route: /dashboard Entitlement: module.dashboard (all plans)

- Live KPI cards: total revenue (dept vs trip), expenses (fuel/toll/driver), net profit/margin, fleet counts
 - Monthly revenue vs expense bars
 - Expense mix breakdown
 - Operations snapshot (dept cabs, trip cabs, fuel fills, live trips, drivers)
 - Compliance summary (expiring / expired)
 - Per-vehicle live table + profitability ranking
-

3.2 Vehicles

Routes: /vehicles, /vehicles/:id Entitlements: vehicles.crud - vehicles.bulk_import - vehicles.mode_switch - vehicles.detail - vehicles.live_tracking (future) - limits.max_vehicles

Fleet roster

- Create / edit / delete vehicles
- Status cycle: Running/Active -> Idle -> Maintenance -> Running
- Mode switch: Department ? Trip-based (weekend-trip flag on dept vehicles)
- Filters: type, search; stats (running/idle/maintenance/dept/trip)
- Bulk import Excel + template download
- Docs at create: RC, Insurance, PUC, Permit, Auth (+ fitness fields)
- FASTag id/bank/balance, GPS IMEI, photo, odometer, fuel type, seating

Vehicle detail

- Tabs: overview - compliance - trips/bookings - expenses
- Linked duty logs, fuel, FASTag, maintenance, P&L
- Availability check modal (shared with bookings)

Not production-ready

- LiveTrackingView - mock telemetry (socket /tracking prepared, not auto-connected)
 - Legacy dept/trip-only list views exist as files but are not on the current route UI
-

3.3 Drivers

Entitlements: drivers.crud - drivers.bulk_import_export - drivers.assignment - drivers.attendance - drivers.attendance.bulk - drivers.expenses - drivers.payroll - drivers.advances - drivers.penalties - limits.max_drivers

Driver list (/drivers/list)

- CRUD drivers; On/Off duty toggle
- Types: Full Time / Part Time / Contract / Owner Driver
- Card/list views; filters (type, status, assigned/unassigned)
- License + photo; salary; emergency contact
- Import Excel; export Excel/CSV; template
- Detail view with history

Vehicle-driver assignment

- Assign / end assignment via /driver-assignments
- History; odometer/reason on unassign

Attendance (/drivers/attendance)

- Log Present / Late / Absent / On Trip / On Leave
- Check-in/out, duty type, vehicle, hours, notes
- Bulk mark for a date; edit status; date/month/year filters
- Voice fill on log modal

Driver expenses (/drivers/expenses)

- Categories: Daily Bata, Night Halt, Advance Payout, Overtime, Toll cash, Uniform/Misc
- CRUD; status Approved / Pending / Paid; receipt upload

Driver payroll (/drivers/payroll)

- Monthly summary: base salary, advances, challans/penalties, absent deductions, net payable
- Give/edit/delete advance; add/edit/delete challan/penalty
- Settle / unsettle salary; payroll detail drawer
- Status: PAID / DUE / ADVANCE RUNNING

Realtime: attendance create/update/bulk/delete; driver duty start/end

3.4 Departments & contracts

Entitlements: departments.contracts - departments.duty_logs - departments.duty_logs.print - departments.monthly_billing - departments.weekend_billing - departments.payments - departments.gst - departments.invoice_print

Contracts (/departments/contracts)

- CRUD department contracts
- Dept name, contact, vehicle, driver, monthly base, included km/hours, extra rates, dates, status, contract PDF
- Voice fill

Daily duty logs (/departments/duty-logs)

- CRUD duty slips; approve/reject/pending
- Official dept duty vs Weekend/Off-duty trip
- KM/hours, fuel, toll, officer details, signatures, photos
- Views: slips vs logbook; print logbook / slip
- Weekend package pricing fields

Monthly billing (/departments/billing)

- Generate monthly tender bills (rent + extras + fuel + night + toll + GST)
- GST: rate, CGST+SGST vs IGST
- Bill statuses: Draft/Sent/Pending/Paid/Overdue
- Print / Save PDF; delete bills

Weekend billing (/departments/weekend-billing)

- Weekend trip register; free-km vs chargeable
- Generate weekend cash memo bills
- Billing status Unbilled/Billed/Paid

Payments (/departments/payments)

- Record payments (NEFT, Treasury Challan, Cheque, UPI, etc.)
- Proof upload; status Received/Reconciled/Processing

Realtime: duty-log created/updated/deleted

3.5 Bookings (commercial trips)

Routes: /booking, /bookings Entitlements: bookings.crud - bookings.complete - bookings.payments - bookings.availability - bookings.live_map - bookings.dept_weekend - limits.max_bookings_per_month

- Create booking: customer, route (OSRM + autocomplete), one-way/round, vehicle/driver, fare, advance
- List filters: status, month, date, pending payment, dept-weekend
- Update; status Scheduled/Ongoing/Completed/Cancelled
- Assign driver/vehicle
- Complete trip: end odometer, fuel/FASTag/bata/other costs, balance collection
- Collect payment (partial/full)
- Vehicle availability by date
- Detail modal + BookingLiveMap
- Voice fill on add

Realtime: booking created/updated/completed/assigned/unassigned

3.6 Expenses

Entitlements: expenses.fastag - expenses.fuel - expenses.all - expenses.fastag.recharge

Submodule	Route	Capabilities
FASTag	/expenses/fastag	Toll deduction + recharge per vehicle; tag/bank/balance; proofs
Fuel	/expenses/fuel	Litres, rate, station, odometer, payment mode, meter/receipt photos
All expenses	/expenses/all	Fuel, FASTag/Toll, Driver, Maintenance, General; add general expense

3.7 Profitability

Route: /profitability Entitlements: profitability.overview - profitability.pnl_ledger - profitability.export

- Trip vs department contribution margins
 - Direct costs vs common overheads
 - Net profit / margin
 - P&L ledger tabs: bookings - departments - overheads
 - CSV export of ledger
-

3.8 Revenue

Route: /revenue Entitlements: revenue.overview - revenue.manual_entry - revenue.outstanding - revenue.vehicle_economics

- Tabs: overview - trips - departments - vehicles - outstanding - recent
 - Date filters; vehicle/dept/type/payment status
 - Time-series chart; vehicle economics
 - Manual add revenue; detail modal; edit linked booking
 - Collection: received / pending / overdue
-

3.9 Compliance

Route: /compliance Entitlements: compliance.vehicle - compliance.driver - compliance.alerts

- Vehicle docs: RC, Insurance, PUC, Permit, Auth, Fitness, Tax, etc.
 - Driver docs: License, Police, Medical, etc.
 - Expiry status: ok / soon / late
 - Add / edit / delete; photo/PDF upload; detail viewer
 - Feeds sidebar badge + notifications
-

3.10 Maintenance

Route: /maintenance Entitlements: maintenance.crud - maintenance.bills

- Log Service / Repair / Tyre Change (+ tyre count)
 - Cost, bill attachment, notes, status Completed/In Progress/Scheduled
 - Month stats; per-vehicle summary
-

3.11 Activity audit

Route: /activity Entitlements: activity.feed - activity.export - activity.user_stats

- Agency activity feed + per-user stats
 - Filters: user, category, actor type
 - CSV export
-

3.12 Support reports

Routes: /report, /reports Entitlement: support.tickets

- Tickets: issue / query / feature_request / other
 - Priority, module, attachments (<=10MB)
 - List/filter by status; detail view
-

3.13 Notifications

Route: /notifications Entitlements: notifications.in_app - notifications.push - notifications.realtime

- In-app list: compliance, maintenance, fleet, financial, bookings, system
 - Mark read / mark all / delete; deep links
 - Socket.IO /notifications
 - FCM push (permission, token register, test push)
 - Preference toggles in Profile
-

3.14 Profile & settings

Route: /profile Entitlements: profile.self - profile.sessions - profile.agency_edit

- Account edit (name, email, phone, avatar)
 - Password change
 - Agency profile edit (GSTIN, PAN, address, business type, logo)
 - Preferences: theme, notification categories
 - Device sessions
 - Role display only (cannot self-change)
-

4. Cross-cutting capabilities

Capability	Entitlement suggestion
Voice form fill	ux.voice_fill
File uploads	ux.uploads
Multi-language UI	ux.i18n
Dark/light theme	ux.theme
Live GPS tracking (stub)	gps.live_tracking
Chat socket (stub)	chat

5. Roles (today)

Defined on user: admin | manager | operator

Finding	Detail
UI gating	None - no route/module checks on user.role
Display	Role badge on Profile / Topbar only
Registration	New users registered as admin

Future: seats owned by plan; permissions owned by role x unlocked modules.

6. Plan / subscription status in Admin

Check	Result
SaaS plan UI	Not present
Entitlement / feature flags	Not present
Seat / vehicle / driver quotas	Not present
"Billing" in product	Means customer/department invoicing, not KABPRO subscription

7. Key domain entities

Entity	Purpose
Agency	Multi-tenant org (GSTIN, PAN, business type)
User	Account + role + sessions
Vehicle	Fleet unit (Dept/Trip, FASTag, GPS, docs, P&L)
Driver	Roster, license, salary, duty, assignment
DriverAssignment	Assign/unassign history
DriverAttendance	Daily attendance
DriverExpense / Advance / Penalty / PayrollSettlement	Payroll engine
DepartmentContract	Tender terms
DailyDutyLog	Duty slips + weekend package fields
MonthlyDepartmentBill	Monthly or weekend invoices
DepartmentPayment	Collections
Booking / TripFinancial	Commercial trips
FuelLog / FastagTransaction / ExpenseRecord	Cost stack
DocumentCompliance	Expiry-tracked docs
MaintenanceRecord	Service/repair/tyre

RevenueItem	Trip / Department / Manual lines
IssueReport	Support tickets
ActivityItem	Audit log
Notification	In-app + push

8. Realtime surface

Channel	Use
Socket /notifications	New notifs + fleet events into FleetContext
Fleet events	Bookings, duty logs, attendance, driver duty
Socket /tracking	Prepared, not connected in UI
Socket /chat	Prepared, unused
FCM	Push notifications
BookingLiveMap	Client-side route/map (not GPS socket)

9. Entitlement catalog (for packaging)
